About This Game

After an asteroid delivered chunks of rock and toxic overgrowth fungus, survivors found that their world had changed into the brutal new environment in which they would raise new generations. People soon formed Factions and claimed territories using whatever means of coercion they could find: negotiation, spears, or more advanced weaponry. The Fall forced survivors to abandon their technology, or 'Tec,' and learn to survive without it. When found, Tec can still be of great value to someone with the knowledge to use it.

In Razor Edge Games' premier title, Eden Falling is a turn based RPG that finally brings a tabletop-based experience to cinematic life. Join those living after the Fall, exploring an extensive world with over 30,000 places to visit and dozens of optional rules to add to the challenge. Join in a fight for survival where your choices decide your fate.
